```
Manager with
constraint
    earnEnough: $ forall m/Manager x/Integer
                (m salary x) ==> (x >= 50000) $
end
```

History Window

13: ERROR

Error Message:

The updated object base regards \$(Eleonore in Manager) and (Eleonore salary 20000)\$ as a true statement. In such cases an integrity constraint requires that another statement, \$(20000 >= 50000)\$, is also true. But that is not the case here!

The new integrity constraint \$ forall m/Manager x/Integer
(m salary x) ==> (x >= 50000) \$ is not satisfied by this
module.
